PRF Therapy

Stimpod PRF Therapy with the **NMS460** features a unique, patented treatment for patients suffering from neuropathy.

Simple

Unique, targeted approach with confirmation of treatment delivery. Plug-and-play simplicity for the easiest of practice implementation. Portable or mountable for easy transport from patient room to patient room.

Versatile

Stimpod therapy can be utilized for neuropathic pain throughout the body. The Stimpod features unique patient delivery methods that can assist with diagnosis and provides measurable feedback for the clinician.

Effective

The therapeutic effect of the Stimpod NMS460 waveform is based on the cellular metabolic activity observed when a neuropathic nerve is subjected to electromagnetic effects caused by pulsed radio frequency (PRF). The targeted nature of the NMS460 combined with PRF is designed to provide fast onset of relief for the patient with no known side effects.

Chronic intractable pain | **Post-surgical pain** | Post-traumatic acute pain problems | **Pain control due to rehabilitation**
Vagus nerve | **Post-stroke** | Post-chemo | **Bell's palsy** | Parkinson's disease
